

ADT AFRICA

Drilling & Piling Services

ADT Africa is a mineral exploration, piling, geotechnical and geophysical investigation, geothermal and water drilling company. In addition the company performs related services including civil, earth moving works both onshore and offshore (dredging), camps and access roads.

Its African based operations support the continents goals of extraction of minerals and water production by providing safe high-efficiency drilling services to mining, construction, geothermal and water to communities.

We are a leader specifically in East and Central Africa, where we operate one of the largest and most advanced rig fleet and support services. Our focus on state-of-the-art engineering solutions and our expertise covers many drilling areas from high pressure and high temperature drilling to technical limit drilling and directional drilling. Our in-house engineering department modifies existing rigs, ensuring that our equipment delivers exactly what our customers need.

We are ISO certificated and dedicated to delivering lower total well costs for our customers by conducting a safe and efficient operation, and we continuously monitor and evaluate customer satisfaction and feedback.

Our 90% African born employees are what differentiate us from international competition. Therefore, we invest in the latest training equipment applying the most efficient training methods to ensure that our people are always properly trained to undertake operations in a safe manner.

Drilling & Piling Services

Our products in society

Drilling Experience: Copper, Zinc & Lead, Rare earths, Gold, Graphite, Nickel, Iron Ore, Limestone

Drilling Experience: Foundations, Ports, Oil wells, Bridges

Drilling Experience: Buildings, Ports, Heavy Industries

Drilling Experience: Exploratory only

Drilling Experience: Boreholes

ADT Africa in brief

- Established in 2004
- Headquarter: Kampala, Uganda
- Offices: Kampala, Doko, Kigali, Juba
- Own and operate 20 rigs
- Employees: we employ around 75 personnel, including contractors

Fleet information

ADT Africa has one of the youngest and most advanced rig fleets in the region. We currently operate 20 drilling rig units including rigs that can be mounted onto boats and pontoons for offshore drilling for geotechnical testing.

We have expanded our fleet to 8 diamond core rigs which are able to operate in depths that exceed 2,000m.

Piling

Servicing East and Central Africa's civil construction, Ports, Oil and Gas industries to pile strong foundations with our MAIT HR 180 based out of Namanve Industrial Park, Kampala, Uganda.

Environment, Health & Safety

ADT Africa's objective is to promote a working environment where health, safety and environmental awareness are fundamental parts of the corporate culture.

The health and safety of employees, contractors, clients, visitors, and the local communities affected by ADT activities is a key priority.
